

SecureFutures Money Coach

Your opportunity to change teens' lives

Teens in our community need financial mentors. The Money Coach program from SecureFutures connects volunteer “coaches” from the business community with students at schools and community sites. The results? Life-changing behaviors for teens based on unforgettable relationships with volunteers. If you enjoy working with teens and have good personal finance know-how, Money Coach may be a perfect way to make a lasting impact in your community.

We provide Money Coach volunteers with training and support around a proven curriculum on budgeting, savings, and college/career readiness. We team up three Money Coaches for 90-minute lessons, twice a month for four months to:

- Work with students one-on-one and in small groups
- Lead lessons at a dedicated school/site of your choice
- Engage teens with real-life financial lessons and activities
- Share experiences and expertise
- Empower students with financial knowledge they may not get elsewhere
- Form lasting connections with teens

“I see my future differently now because of my Money Coaches. I know now that I’ll be successful.”

- Taleavia, 18,
Money Coach student

“Even as you mentor students, I always feel like they give you back just as much.”

- Tabatha De Leon,
Money Coach volunteer
& mortgage banker
