Teens in our community face a complicated series of choices as they head into life after high school. Should I enter the workforce or pursue more education? How will I pay for college? Will I need student loans? How do I prepare and save for my future?

Money Path is our cutting-edge, web-based financial education application preparing students to answer these questions and more. If you have basic knowledge of technology and personal finance and a passion for connecting with teens, you can change lives by bringing this transformative tool to teens as a Money Path volunteer.

_“I enjoy the conversation with the students regarding their ideas, plans, thoughts and expectations for the future. They really did a great job of engaging in the app and were impressed with the depth of information available to them. I’m looking forward to my next volunteer opportunity!”)_
