

Personal Finance and Financial Planning E-Learning Program

SecureFutures has developed **14 short, online modules** on a variety of personal finance and financial planning topics. This E-Learning Program will help your students to dig deeper into numerous topics that are relevant to life as a young adult. Each module takes between 15-30 minutes to complete.

Easy for Students to Use

- No login or password required
- Options to watch, listen, or read the content to account for different learning styles
- Comprehension questions after each section to check for understanding
- Comprehension and quiz questions are automatically graded with correct answers and explanations provided

Easy for Educators to Implement

- Offered at no cost to you
- Randomized and graded quizzes follow each module
- Certificate of completion for each module, with their quiz score, available for download by students to send as a deliverable
- Lesson guide with sample assignments available

I am working with the SecureFutures Personal Finance e-lessons right now and am loving them. They cover just about EVERY part of Wisconsin's Model Academic Standards for Personal Financial Literacy and I really appreciate it!

Stephanie Stevens, McKinley Academy
