FICO Score Ranges

800 - 850

Exceptional. You will likely have little trouble getting approved for credit and will qualify for the best loan terms.

740 - 799

Very good. You likely will qualify for better interest rates.

670 - 739

Good. Lenders see you as an “acceptable” borrower, but may require answers to additional questions about your credit history.

580 - 669

Fair. You might have difficulty getting credit. When you are approved, it likely will be at a higher interest rate.

300 - 579

Poor. This reflects some real hardships, such as bankruptcy, or a borrower who has not built up credit yet. If you are granted credit, you might need to put down a deposit or pay a fee.

Ways to Establish Your Own Credit History and Score

If you are under 21, ask a family member with good credit to add you as an authorized user on their credit card.

- Pick someone you trust. If they don't pay the bill, your credit history will be impacted.
- Once removed from the card, your credit score will drop slightly if you do not open your own card.

Other options:

- Apply for a store credit card and use it responsibly.
- Apply for a secured credit card at your bank or credit union.
- Ask a friend or relative with an established credit history to be a co-signer on a credit card or loan.

Common Mistakes That Hurt Your Credit

Too many credit cards

Opening too many new accounts or loans in a short period of time

Not checking your credit report

Not notifying creditors when you move or change names

Not using your full legal name on financial documents (esp. if other people in your family have the same name!)
